BY MORGAN HOPE INDUSTRIES

TERRA

LED COUNTERTOP DISPLAY UNIT

APPLICATIONS:

> Product Promotions
> Visual Displays
> Countertop Advertising
> Retail
> Information Displays
> Showrooms
> Events

FEATURES:

> Upload Images and Video Content
> Easy-to-Use App
> Built-in Wi-Fi

HD WI FI

The PIX'L-X Terra Sphere isn't just a display - it's a statement piece that elevates environments and transforms the way people experience content. Its unique 360° visibility and immersive presence make it ideal for a wide range of applications.

The versatility of the PIX'L-X Terra makes it an ideal solution for lobbies, display rooms, showrooms, business lounges and office front-of-house areas, where making a powerful first impression is essential.

By combining innovative design with cutting-edge display performance, it enhances spaces with a sense of modern sophistication and lasting visual impact.

Engineered with high-resolution LED modules, the PIX'L-X Terra delivers vibrant colour reproduction, sharp detail and smooth motion, ensuring that every image or animation is impactful and memorable.

Its curved surface allows for dynamic visual storytelling, creating an immersive effect that feels alive and interactive, no matter where the audience stands.

BORG

LED COUNTERTOP DISPLAY UNIT

APPLICATIONS:

> Product Promotions
> Visual Displays
> Countertop Advertising
> Retail
> Information
> Showrooms
> Events

FEATURES:

> Upload Images or Video content
> Easy use App
> Built-in WiFi

HD WI FI

The PIX'L-X Borg has been developed as a versatile LED display solution, designed to deliver clear, high-impact visuals in environments where visibility and audience engagement are critical. Its innovative four-sided construction provides full 360° coverage, ensuring that content can be viewed from every angle without compromise.

In retail and showroom environments, the PIX'L-X Borg acts as a striking focal point, bringing products and promotions to life while creating memorable customer experiences. At events and exhibitions, it becomes a commanding centrepiece that draws attention across the floor, presenting information and brand messaging with clarity and style.

Within corporate and public spaces, it provides a modern platform for communication, reinforcing brand identity and engaging visitors with dynamic content. In arenas, transport hubs and other high-traffic locations, the PIX'L-X Borg offers a robust and reliable solution for displaying information, sponsorship content and real-time updates.

It can also be deployed in front-of-house areas as a professional yet eye-catching welcome feature or placed on desks and counters, where compact, high-quality displays are needed to deliver focused messaging directly to clients, customers or staff.

SCOOP

LED MOBILE DESK DISPLAY UNIT

APPLICATIONS:

> Events
> Weddings
> Parties
> Advertising
> Retail
> Promotions

FEATURES:

> Upload Images and Video Content
> Easy-to-Use LEDART App
> Built-in Wi-Fi
> Fully Mobile and Portable
> Lightweight, Slimline Design
> Dimensions: (W) 640 × (H) 960 mm

HD WI FI

The PIX'L-X Scoop is not just a display - it's a way to make your message impossible to ignore. If you're looking for a solution that combines striking design with professional performance, here's why it's the right choice:

Standout Design - A unique spherical form that instantly captures attention and becomes a feature in its own right.

High-Impact Visuals - An ultra-fine 2.2mm pixel pitch and vibrant colour reproduction ensure crisp, detailed content that looks flawless both up close and at a distance.

Smooth Playback - A high 3840Hz refresh rate guarantees seamless delivery of video, graphics and animation.

Flexible Installation - Can be suspended, floor-mounted or integrated into bespoke structures to suit your environment.

Versatile Applications - Ideal for retail, events, hospitality, corporate and public spaces where design and communication work together.

Practical & Reliable - A lightweight, modular design with simple front-access servicing.

Long-Term Value - Energy-efficient performance with a lifespan of over 100,000 hours, helping to reduce running costs and maintenance requirements.

Memorable Experiences - Turns spaces into destinations by creating a focal point that engages audiences and strengthens brand presence.

PORTL-X

INTERACTIVE HOLOGRAPHIC BOOTH

APPLICATIONS:

> Retail
> Events
> Exhibitions
> Weddings
> Parties
> Conference Calls
> Commercial Displays
> Advertising
> Promotions

FEATURES:

> Interactive Touchscreen
> Windows PC
> Built-in Camera
> Fully Mobile
> Built-in Speakers

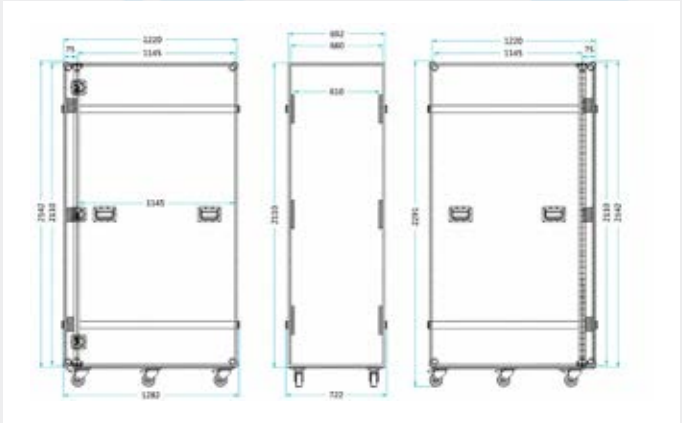
PORTL-X is a new exciting product from PIX'L-X that bring holographic technology to businesses and events. The PORTL-X booth is portable and easy to use letting you interact with 3D holograms.

With a simple set up by internet connection and power outlet it is perfect for countless uses, such as events, product promotions, business meetings or simple information directives.

The PORTL-X booth projects clear and realistic holograms that can be used to connect with people in a personal way. Display your brand or product, host a virtual meeting. The PORTL-X booth lets you interact in real time as if you are in the same room.

The PORTL-X booth can be used in education for hosting lessons or in healthcare Interacting with patients.

The applications are endless.



MEDLEY

INTERACTIVE LED GAMES DANCE FLOOR

APPLICATIONS:

> Weddings
> Parties
> Events
> Exhibitions

FEATURES:

> Upload Images and Video Content
> 150+ Pre-installed Interactive Games
> Built-in Wi-Fi
> HDMI and Ethernet Connections

HD WI FI

The Interactive LED Floor is not only a tool for exhibitions and commercial spaces but also a spectacular feature for weddings, parties and live events. Its ability to react to movement makes it the perfect choice for a dance floor, where every step triggers vibrant patterns, colours and visual effects. This creates an atmosphere that is both exciting and immersive, ensuring guests are drawn onto the floor and encouraged to keep dancing.

For weddings, the floor adds a truly memorable touch - from a glowing aisle during the ceremony to a dynamic backdrop for the first dance. The interactive visuals elevate the celebration, enhancing key moments and leaving a lasting impression on everyone present.

At parties and evening receptions, the floor becomes a focal point, transforming ordinary spaces into unforgettable experiences through energy, movement and light.

KRYSTAL

LED TRANSPARENT WINDOW DISPLAYS

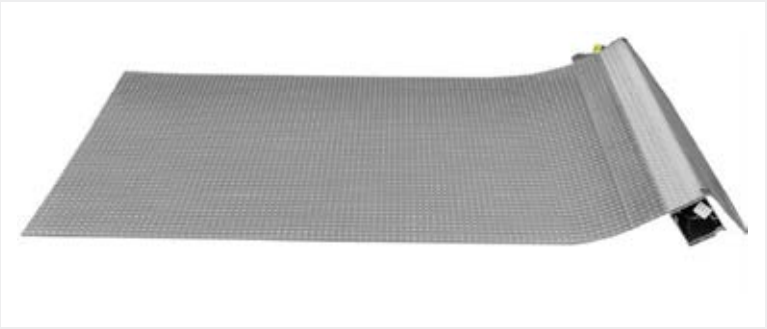
APPLICATIONS:

- > Retail
- > Window Displays
- > Commercial Displays
- > Partition Displays
- > Events
- > Exhibitions
- > Restaurants
- > Shopping Centres

FEATURES:

- > Interlinkable
- > Built to the Required Size
- > Upload Images and Videos via the App
- > HDMI and Ethernet Connections
- > Built-in Wi-Fi

HD WI FI



Our Krystal range of transparent LED screens has the unique ability to display high-quality images and videos while remaining virtually invisible. These screens, made from transparent materials with integrated LED technology, are used across a wide range of applications, from advertising and entertainment to retail and hospitality.

With their ability to blend seamlessly into almost any environment, transparent LED screens have revolutionised the way businesses and organisations communicate with their audiences.

Our Krystal range of ultra-clear, high-transparency video displays achieves a transparency level of up to 80% and can even be mounted onto curved glass, as shown above. Seamless installation with no visible structural framework ensures a clean, contemporary appearance.

This industry-leading technology delivers exceptional brightness, ensuring content remains clearly visible even in the brightest commercial environments or exterior-facing shopfront windows. Glass installations up to 2.4 metres in height can be achieved without any visible supporting structure, while virtually unlimited screen widths are possible.

INSIGNIA

LED FOLDABLE, SPLICE ABLE DISPLAY UNIT

APPLICATIONS:

> Product Promotions
> Visual Displays
> Countertop Advertising
> Retail
> Information Displays
> Showrooms
> Events

FEATURES:

> Upload Images and Video Content
> Easy-to-Use App
> Built-in Wi-Fi

HD WI FI MULTI SCREEN SPLICING SYNC & ASYNC

The LED Foldable Display Poster Series isn't just a display - it's a smart, adaptable solution for real-world communication. Designed for impact, mobility and ease of use, it fits seamlessly into exhibitions, events and advertising spaces where visibility and speed matter most.

At trade shows and corporate events, these displays help brands stand out with crisp, dynamic visuals, while their foldable, lightweight design makes setup quick and effortless. Event organisers can easily reposition them to meet changing requirements - from displaying schedules and sponsor content to providing live updates - all without the limitations of traditional signage.

In retail and promotional settings, the foldable displays offer a modern alternative to static signage. Content can be updated instantly to align with campaigns, seasons or customer demand, keeping messaging relevant and engaging at all times.

For venues and public spaces, they provide a clean, professional platform for announcements, branding and wayfinding. Wherever they're used, these displays help create a polished, flexible and visually engaging experience, enhancing the way spaces communicate and connect with their audiences.

Multiple Playback Methods

HEADER BOARDS

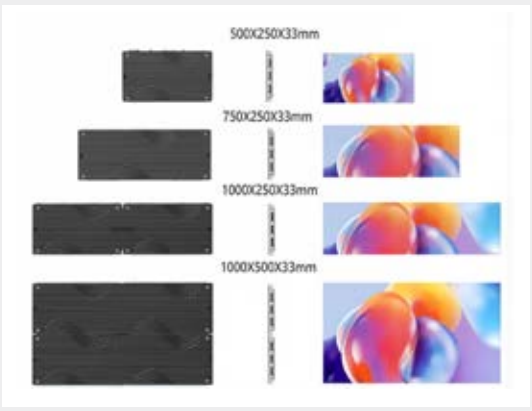
LED WALL AND HEADER BOARDS

APPLICATIONS:

- > Retail
- > Advertising
- > Information Displays
- > Shopping Centres
- > Events
- > Exhibitions
- > Promotions

FEATURES:

- > Interlinkable
- > Built to the Required Size
- > Built-in Wi-Fi
- > Upload Images and Videos via the App
- > HDMI and Ethernet Connection



The PIX'L-X Header Board is a next-generation LED display solution designed to deliver exceptional visual impact in retail, commercial and experiential environments. Engineered for precision and built using high-performance SMD LED technology, the PIX'L-X Header Board provides vibrant colour reproduction, smooth motion and ultra-clean image uniformity, even at close viewing distances.

Whether used to elevate retail product displays, reinforce brand messaging or create immersive digital experiences, the PIX'L-X Header Board combines sleek aesthetics with robust performance. Its slim profile, lightweight aluminium construction and modular design make it suitable for both new installations and retrofits, giving designers and installers the freedom to create bold, dynamic visual layouts.

CORONA

LED WALL DISPLAY UNIT

APPLICATIONS:

> Product Promotions
> Visual Displays
> Advertising
> Shopfronts
> Retail
> Information Displays

FEATURES:

> Upload Images and Video Content
> Easy-to-Use App
> Built-in Wi-Fi

HD WI FI

The PIX'L-X Corona series has been created to excel in almost any environment where visual impact, reliability and innovation are essential. In retail and showroom settings, it acts as a powerful focal point, transforming shopfronts, window displays and product areas into striking visual showcases that capture attention and reinforce brand identity.

Within hospitality and leisure environments such as restaurants, bars, hotels and entertainment venues, the PIX'L-X Corona series delivers far more than illumination - it becomes part of the experience, enhancing the atmosphere, reinforcing a venue's style and creating immersive focal points that elevate the customer experience.

CANVAS

LED MOBILE SANDWICH BOARD DISPLAY UNIT

APPLICATIONS:

> Events
> Weddings
> Parties
> Advertising
> Retail
> Promotions

FEATURES:

> Upload Images and Video Content
> Easy-to-Use LEDART App
> Built-in Wi-Fi
> Fully Mobile and Portable
> Lightweight, Slimline Design
> Dimensions: (W) 640 × (H) 960 mm

HD WI FI

The PIX'L-X Canvas Display Board has been designed to combine ultra-fine resolution, sleek design and reliable performance in a versatile indoor display solution. With a pixel pitch of just 1.86mm and high brightness levels, it delivers crystal-clear visuals that remain sharp whether viewed from close range or across the room.

Engineered for environments where both clarity and impact are essential, the PIX'L-X Canvas Display Board is ideal for exhibitions, retail spaces, corporate environments and hospitality venues. Its slim profile and lightweight cabinet construction allow for easy installation, while the high refresh rate ensures smooth playback for presentations, branding and live content.

With energy-efficient performance, a long lifespan and flexible input options, the PIX'L-X Canvas Display Board is more than just a screen - it's a modern communication platform designed to inform, engage and inspire.
